Shorts

All measurements are in cm unless otherwise stated. Multiple * 0.3937 for inches.

Note: Sizes indicated are for UNPRINTED garments. Printed garments can shrink by up to 4%.

The Lookfly Sizing Chart is designed to help you choose the correct Lookfly shirt size. The easiest way to do this is to measure a garment you already own that you find comfortable to play in and fits you well.

The diagrams to the right indicate where we have provided measurements for our shirts and is also the best place to measure your shirt for comparison.

* Chest "To Fit" sizes and Waist Sizes are provided as industry standard for womens tops and shorts. Chest measurements are made tight around the chest using a tape measure.

* The elasticated waist combined with draw string on our shorts provides for a wide range of fit. If you cross over more than one size size, order based on your preferred length.

This chart should only be used for Lookfly Technical Shorts and Shirts. Our Lifestyle and Cotton range requires a different chart often included within the specific catalogue for that item.
