

SUGGESTED FONTS - For Names and Numbers

Here at Lookfly, we are equipped to make names and numbers in nearly any PC True Type Font that you wish. If you have a particular font in mind, please send it to us or tell us what it's called and we will see if we can use it for your order. We recommend browsing www.dafont.com if you'd like to seek out a PC True Type font for yourself that suits your team's unique look.

Most numbers are made approx. 18.6cm tall and for breast/short numbers we work to approx. 5cm tall. However, we may need to adjust the height of your numbers if your font choice is particularly wide or if the event you want your order for requires a certain number size in its regulations.

We adjust the size of names to ensure that they are consistent within your order and large enough to be readable on pitch. However, there are some players who may want particularly long names. We do try to accommodate everyone's name choice, but for consistency sake - we ask that names are no longer than 10 - 12 digits.

If you don't have a font in mind, here are some of our most popular fonts which you could use on your team uniforms:
